Paul Fournier

Experience 4/2004–Present Hexagram Research Institute Montréal, Qc
Site Manager

- Implemented and managed protocol for access to research equipment and facilities
- Provided expertise in digital audiovisual technologies.
- Designed and implemented a grant management website for collecting researcher input and promoting cross University communication between three Universities with a total of sixty four researchers.

8/2001–8/2004 Concordia University CDA Montréal, Qc
Programmer Analyst/Network Technician

- Implemented Fine Art's first Windows 2000 domain with Active Directory.
- Designed and implemented a web application to manage domain accounts and systems.
- Design and implemented an audio-visual booking equipment application with remote SQL database access allowing several nodes to manipulate and perform bookings with full Active Directory integration.
- Custom designed and build of a cross platform file server with expansion capabilities of 3TB.
- Expanded domain to include 3 different campuses.
- Performed consultation functions for the Hexagram research grant. Also attended several meetings with integrators to explore possible solutions for asset management, SAN servers, streaming servers, and integration of network infrastructure to the RISQ network.

Education 9/2003 **HOTT** Chelmsford, Massachusetts

- Linux System Administration Seminar
- Installation, maintenance, and configuration of Linux systems in networked environments

5/2001 **Herzing Institute** Montréal, Qc

- Micro-computers and Networking
- Programmer Analyst
- Required 4 month internship
- Recipient of the *Student Programmer of the Year Award*

4/2000 **Concordia University** Montréal, Qc

- B.F.A., Major in Sculpture.
- Graduated with Great Distinction
